**W. Andrew H. Gantt III : E-Health, Privacy, and Security Law, Second Edition, 2012 Supplement** before purchasing it in order to gage whether or not it would be worth my time, and all praised E-Health, Privacy, and Security Law, Second Edition, 2012 Supplement:

The 2012 Supplement offers updated coverage on current e-health trends such as: Technology innovation and government incentives, which continue to bolster the value of e-health products and services to society Advice to help ensure that Web-based e-health companies comply with applicable regulations How the Food and Drug Administration and the Federal Communications Commission may work together in the future to regulate wireless health technologies New challenges associated with the use of the Internet, computers, and mobile devices, which have become pervasive in attorney communications Advice regarding e-health transactions, including due diligence of government contractors Significant developments with the European Privacy Directive.
