**Margreth Barrett : Emanuel Law Outlines: Intellectual Property** before purchasing it in order to gage whether or not it would be worth my time, and all praised Emanuel Law Outlines: Intellectual Property:

6 of 6 people found the following review helpful. Thorough and clear By CalDABI used this supplement in conjunction with the barrett casebook and found it extremely useful. My course was a four unit ip survey class covering trade secrets, patents, copyright, trademark, and the law of undeveloped ideas. We didnt tackle right to publicity or other ip topics, but what we did cover was extensively outlined in this supplement. The supplement is conveniently keyed to other ip casebooks as well. What I really liked with this supplement is the generally straightforward way it's laid out and the amount of black letter law it includes. Sometimes certain sections were slightly repetitious, but on the whole this supplement was great. The only reason it's not a five star for me is that it's missing a few recent cases that change the law and there is no info on the Aspen site the book tells you to reference to find out about updates. Previously I've only used the understanding series and examples and explanations, but after my

experience with this supplement I'll certainly be considering Emanuel for any future purchases as well. In reflection, I could have skipped paying 170 for the casebook and just paid 40 for this supplement and been absolutely fine. 3 of 3 people found the following review helpful. Good for business types too. By Michael SI purchased this book to provide good background information for a simple seminar I teach within my company to provide information to inventors. It is written to provide high level explanations of legal concepts as well as more detailed case law. What was most beneficial to me was the section offering example cases and opinions. This is far beyond what anyone can learn by searching the on-line resources such as the USPTO website and hence very valuable. It is written in a simple and easy to understand way and arranged to get to the information you need quickly. I think this is a good book to have for lawyers and business people involved in IPR alike. 0 of 0 people found the following review helpful. I like the Emanuel supplements overall. By KLAI like the Emanuel supplements overall. This book really helped when studying for my IP final because it quickly and clearly breaks down the different areas of IP. It helped me review the concepts and types of analysis in combination with my outline.

The most trusted name in law school outlines, Emanuel Law Outlines support your class preparation, provide reference for your outline creation, and supply a comprehensive breakdown of topic matter for your entire study process. Created by Steven Emanuel, these course outlines have been relied on by generations of law students. Each title includes both capsule and detailed versions of the critical issues and key topics you must know to master the course. Also included are exam questions with model answers, an alpha-list of cases, and a cross reference table of cases for all of the leading casebooks. Emanuel Law Outline Features: #1 outline choice among law students  
Comprehensive review of all major topics  
Capsule summary of all topics  
Cross-reference table of cases  
Time-saving format  
Great for exam prep
