International Energy Agency : Energy Policies and Programmes of I.E.A.Countries 1989 Review before purchasing it in order to gage whether or not it would be worth my time, and all praised Energy Policies and Programmes of I.E.A.Countries 1989 Review:

From Book NewsThe International Energy Agency's annual report on the progress of each of its 21 member countries in reducing their vulnerability to supply disruptions and adapting their energy economies to changed circumstances. Includes an overall survey of developments in energy markets and energy related environmental issues as well as separate reviews of each member country's policies and programs. Also includes basic statistical information and recommendations. Annotation copyright Book News, Inc. Portland, Or.
