before purchasing it in order to gage whether or not it would be worth my time, and all praised Enforcing International  
Law Norms Against Terrorism (Studies in International Law):

The scale and horror of recent terror attacks and the panic which ensued throughout the world has forced policy-makers and international lawyers to re-examine international legal tools available to enforce norms against terrorism. The magnitude of the attacks, the modalities of the operations, the profiles of the terrorists and the transnational structure of some terrorist organizations all cast doubt on the adequacy of the existing political and legal framework to fight terrorism. This book comprehensively analyzes the suitability of existing international legal tools to enforce rules prohibiting terrorism. Contributions from leading experts in international law examine questions relating to the proper role of international law in combating terrorism, the legality of covert operations against terrorism, whether the law of armed conflict can be applied to the war against terror, domestic anti-terror laws and their compatibility with human rights standards, and how to regulate the internet to prevent terrorist usage.

.the volume very usefully sketches the contours of the ongoing debates within international law over the correct response to terrorism. Karima Bennouna *The American Journal of International Law*, Vol 100 2006 .a timely and welcome addition to the literature, and will serve to stimulate and inform debate on issues that are likely to remain of central importance to the international community in the coming years. Chester Brown *The Cambridge Law Journal* November 2005 [a] rich collection of masterfully written essays.. *American Society of International Law Newsletter* November 2004 .[offers] insights which both strategists and policy-makers will find useful. *The Commonwealth Lawyer*, Vol 15, No 2 August 06 .the volume is more like a manual on post-11 September international terrorism than a simple collection of essays. Pasquale De Sena *The European Journal of International Law*, Vol 17, No 4 2006>About the AuthorAndrea Bianchi is Professor of International Law at The Graduate Institute of International Studies, Geneva and Professor at the Catholic University, Milan.
