Wolfe, White, Susan Wolf, Paul Dobson, Nigel Gravells, Phillip Kenny, Richard Kidner : Environmental Law (Principles Of Law) before purchasing it in order to gauge whether or not it would be worth my time, and all praised Environmental Law (Principles Of Law):

The "Principles of Law" aims to provide the law student with texts on the major areas within the law syllabus. Each text is designed to identify and expound upon the content of the syllabus in a logical order, citing the main and up-to-

date authorities. This work covers environmental law. The "Principles of Law" books are the new edition of the "Lecture Notes" series.

As well as providing the student with basic information about the subject, the book is sufficiently detailed to warrant inclusion in the practitioners bookcase. -- Scottish Law Gazette, 1996. One of the best written and clearly documented publications yet. -- Wendy Dolby-Steves, Southampton Institute. Wolf and White provide ample coverage of most of the core material that most teachers would wish to cover ... The material is well presented and in a very clearly structured and accessible form. -- The Law Teacher. About the Author Susan Wolf, BA (Econ), LLB (Hons), is Principal Lecturer in Law at the University of Northumbria. Neil Stanley, LLB (Hons), Solicitor, is Lecturer in Law at the University of Leeds. Both have extensive experience of teaching both law and non-law students at both undergraduate and postgraduate levels.
