Steve Peers : EU Justice and Home Affairs Law (Oxford European Community Law Library) before purchasing it in order to gage whether or not it would be worth my time, and all praised EU Justice and Home Affairs Law (Oxford European Community Law Library):

This book examines in detail EU law on Justice and Home Affairs. In turn, it looks at the decision-making and judicial rules which the EU applies in these areas, then it examines the extensive EU law on visas and border controls, regulation of legal migration, control of illegal migration, criminal law definitions, criminal procedure, and policing

and customs.

from previous edition: "Steve Peers's book on 'Third Pillar' matters is a remarkable volume, at both what one might call the 'macro-' and 'micro-' levels. At the higher level, it gives some sense of quite how much action has been taken in the sensitive fields of criminal law and immigration under the EU umbrella. At the level of detail, Peers shows just how complex the programmes are. ...It is a tribute to the massive endeavour of Professor Peers, as well as to the broad scope of his knowledge, that this book carries off with enormous authority both the macro- and micro- tasks." --Colin Warbrick, *International Journal of Refugee Law*, Vol 20, No.1, March 2008

About the Author Steve Peers is a Professor of Law at the University of Essex. He has written extensively on the issue of EU Justice and Home Affairs Law, along with the issues of Human Rights in EU law, EU external relations law and EU social law.
