Competition Law Annual 2010: Merger Control in European and Global Perspective:

Every year, top-level market regulators, academics, and legal and economic practitioners attend the Annual Competition Workshop organized by the Robert Schuman Center for Advanced Studies at the European University Institute in Florence. The participants are invited to discuss a particular set of critical issues in the field of competition law and policy, and they prepare in advance a written paper and contribute to the oral debate during the proceedings. The meetings are closed to the public, but the entire content of the proceedings - both the oral discussions and the written contributions - are published following the event, in the European Competition Law Annual series. This 15th volume in the series reproduces the debate, which in 2010 examined merger control and coincided with the 20-year anniversary of the EU Merger Regulation and a number of important developments internationally in the field of merger policy. The participants discussed legal and economic issues of substantive analysis, procedure, comity, and best practices, as well as matters relating to the litigation of merger cases, particularly before the European Courts. The discussion also benefited from the perspectives of policy makers and experts from the United States, Canada, Japan, and Korea. (Series: European Competition Law Annual)

De landen die in dit panel aan bod komen zijn zeer uiteenlopend, van de 'usual suspects' tot het Midden-Oosten, China en Korea. Dat maakt de bijdragen fascinerend en divers. (Translation: The countries that are discussed range from the 'usual suspects' to the Middle East, China and Korea. This makes the contributions fascinating and diverse.)
