Frans Pennings : European Social Security Law: 6th Edition (Ius Communitatis) before purchasing it in order to gage whether or not it would be worth my time, and all praised European Social Security Law: 6th Edition (Ius Communitatis):

This is the completely revised and updated sixth edition of an authoritative handbook that is used in many courses on European social security and of which already several translations have been made. In the past decades, the

coordination and equal treatment provisions of the European Union have become of vital importance. The book gives a clear overview of the main lines and main developments of this significant part of EU law. (Series: Ius Communitatis - Vol. 6) [Subject: European Law, Social Security Law]
