**From Europa Law Publishing : Europeanisation of Public Law: Second Edition** before purchasing it in order to gage whether or not it would be worth my time, and all praised Europeanisation of Public Law: Second Edition:

The second edition of this textbook is a study about the relation between EU law and national public law. Familiar EU doctrines - on procedural autonomy, direct effect, consistent interpretation, ex officio application of European law, and

state liability - are used as a starting point for examining the effects of these doctrines in the various Member States. Consideration is also given to important questions concerning the enforcement of EU law in the national legal order, the organization of the judiciary, and the influence of EU law on fundamental principles of (public) law, such as legal certainty, non-discrimination, and proportionality. The book is particularly designed for advanced bachelors and masters courses on the relation between national law and EU law. Because of the many examples of national case law, the book will be most welcome to any practitioner dealing with European law in a national context. [Subject: European Law, Public Law]
