Karl Meessen : Extraterritorial Jurisdiction in Theory and Practice before purchasing it in order to gage whether or not it would be worth my time, and all praised Extraterritorial Jurisdiction in Theory and Practice:

This work contains the proceedings of a symposium held in Dresden addressing the topic of extraterritorial jurisdiction

with respect to financial services, tax, arms control, environmental law, antitrust matters and mergers and acquisitions. It provides an overview of how differently jurisdictional issues are perceived and dealt with, especially in the USA and UK. Contributions are from experts in the field. The book differs from others in the field in that it provides a resolution on extraterritorial jurisdiction. Audience: Civil servants, practising lawyers and academics in the field of international public law and private international law.
