**Howard Irving : Family Mediation: Theory and Practice with Chinese Families** before purchasing it in order to gauge whether or not it would be worth my time, and all praised Family Mediation: Theory and Practice with Chinese Families:

0 of 0 people found the following review helpful. Useful book that acknowledges cultural backgrounds By Abby Ho I find this book to be very useful. Family mediation is of more and more importance in Hong Kong. However, most of the overseas books on the subject caters for people who has a western background. In fact, people in Hong Kong may

think in a different way than their western counterparts. Therefore, this book, which takes into account the mentality of people in HK, is doubly useful, both in terms of theory and as a practical guide. I will give it five stars.

This book the first comprehensive treatment of family mediation for Chinese families provides the knowledge and skills to achieve that objectives.
