**Sue Elworthy : Farming for Drinking Water: Nitrate Pollution of Water : An Assessment of a Regulatory Regime (Avebury Studies in Green Research)** before purchasing it in order to gage whether or not it would be worth my time, and all praised Farming for Drinking Water: Nitrate Pollution of Water : An Assessment of a Regulatory Regime (Avebury Studies in Green Research):

Examines the legal dimension of the pilot study in England to see if changing ways of farming can stop water resources from being contaminated with nitrate. The text argues that rather than food and water being in conflict, it is law which has caused the problem that law now seeks to solve.
