Shiri Pasternak : Grounded Authority: The Algonquins of Barriere Lake against the State before purchasing it in order to gage whether or not it would be worth my time, and all praised Grounded Authority: The Algonquins of Barriere Lake against the State:

Since Justin Trudeau's election in 2015, Canada has been hailed internationally as embarking on a truly progressive, post-postcolonial era including an improved relationship between the state and its Indigenous peoples. Shiri Pasternak corrects this misconception, showing that colonialism is very much alive in Canada. From the perspective of Indigenous law and jurisdiction, she tells the story of the Algonquins of Barriere Lake, in western Quebec, and their tireless resistance to federal land claims policy. *Grounded Authority* chronicles the bands' ongoing attempts to restore full governance over its lands and natural resources through an agreement signed by settler governments almost three decades ago an agreement the state refuses to fully implement. Pasternak argues that the state's aversion to recognizing Algonquin jurisdiction stems from its goal of perfecting its sovereignty by replacing the inherent jurisdiction of Indigenous peoples with its own, delegated authority. From police brutality and fabricated sexual abuse cases to an intervention into and overthrow of a customary government, Pasternak provides a compelling, richly detailed account of rarely documented coercive mechanisms employed to force Indigenous communities into compliance with federal policy. A rigorous account of the incredible struggle fought by the Algonquins to maintain responsibility over their territory, *Grounded Authority* provides a powerful alternative model to one nation's land claims policy and a vital contribution to current debates in the study of colonialism and Indigenous peoples in North America and globally.

"*Grounded Authority* is a powerful and compelling study based upon a sophisticated grasp of Indigenous politics, settler colonial logics, and political theory." Kevin Bruyneel, author of *The Third Space of Sovereignty: The Postcolonial Politics of U.S. Indigenous Relations* "An impressive and highly original analysis of the overlapping conflict-laden regimes of legal and political authority, Shiri Pasternak's deeply researched study provides an analytically nuanced and engaging account of the ways in which the Algonquins of Barriere Lake confront the jurisdictional claims over their land and lives made by Canada and the province of Quebec. *Grounded Authority* brilliantly succeeds at intervening at multiple registers."
