**Judith Areen, Peter Lake : Higher Education and the Law (University Casebook Series)** before purchasing it in order to gauge whether or not it would be worth my time, and all praised Higher Education and the Law (University Casebook Series):

This cutting-edge casebook provides materials for use in law schools and in other higher education programs. The new edition continues its full coverage of core topics involving faculty (tenure, governance, and academic freedom) as well as public/private/for profit distinctions, accreditation, admissions and financial aid. It includes a new case study of the Penn State crisis and materials on key new federal regulatory mandates concerning gainful employment, Title IX

sexual assault guidance, and direct threat analysis under Title II.
